## OH0454 Dynamite Daughters

## Excelsus and Diana's Simbra Unite as Excelsus Namibia

Long has Excelsus been admirers of Otto and Karin's Diana's Simbra stud so much so that we made it our self proclaimed Namibian sister stud.

The journey with Diana started with the discovery of a Simbra Bull named Diana's Gugi that won the Windhoek breed Championships years ago and a subsequent phone call from Hennie De Lange and the late Otto Herrigel.

Through many later phone calls a meeting was set up and our first trip to Namibia arranged.

The cattle and stud enterprise that we saw there made this stud an instant smash hit with us! Excelsus has always been quick to identify cattle, people and stud's that we feel are either on a par or better than us and this we found at Diana's.

It was a wonderful day to finally have Diana's Gugi at Excelsus! Genetic fanciers will trace his lines at Excelsus through many of his sons and daughters. The first three sons of note were Excelsus Galen, Gambino and Gas. Galen went on to win many shows including Breed and Res Interbreed champ at Lichtenburg, and a Res Senior Champion at The Nationals in Vryburg. Galens sons went on to be best sellers at Excelsus for many years with Excelsus Gucci, Galen 2 and Galco all been used in top studs and at Excelsus.

The Diana's Simbra and Simmentaler studs as well as the farms were then bought by the Piet Du Toit farming group who also have a large Bonsmara stud in South Africa. With many phone calls, conference calls and meetings it was decided that these fine studs be amalgamated with Excelsus. The core of the cattle are held at Excelsus in Oranjeville and the remaining cattle, Bonsmara, Simbra and Simmentaler are still independently held by the Piet Du Toit farming group and marketed as Excelsus Kalahari and Excelsus Namibia. This great arrangement sees Excelsus have access to some of the best genetics in these three breeds and have the benefits of numbers and the luxury of genetic feeder herds.

The Piet Du Toit farming Group are very well known as top quality rare game breeders.

## **OH9970B Diana's Gugi**

One of the premier Granddaddy's of the Diana's and Excelsus herds. Gugi has had a major impact in both herds breeding many sale bulls and breeding females. Gugi was a gentleman, shorter type, with tremendous muscling that did very well on the more Brahman types here in SA.
