Excelsus Landgoed: Your Gateway to International Genetics

Frankfort Bonsmara Telersgroep Bull Sale 29 August 12

Excelsus Trust Bonsmara Stud has been building our herd numbers and quality for the last four years and the results are slowly coming through. More cattle means better selection and better overall quality of salable, breeding and potential stud bulls. Using better stud sires, upping our AI program and a cracking upgrading program makes it a really interesting times for this section of Excelsus. Bulls from the late Kit Thompson's Rutland Stud, Genetics from Danolte stud, Gawie Pretorius, Philip Dreyer, Bulls from Frans van den Berg, and our "Impact Player" Buffel from Hans Deloch in Namibia are breeding some fine animals.

This years bulls will be offered in conjunction with the Frankfort Bonsmara Telers Groep on the 29 August 2012.

This is an exciting group of young, new and old breeders with a variety of good and interesting breeding and they have been a pleasure to work with. Dr. Neels Cilliers, Seyfret Strydom, Lewies Rautenbach and Mark McIntyre with Excelsus Bonsmaras to offer 40 selected bulls and 80 females.
