## Excelsus Landgoed: Your Gateway to International Genetics

### A Stroll Through Pine Ridge Ranch

Bill and Jane Travis have been breeding and selecting top quality simbra cattle for over twenty five years and are trying to breed a black hided, Red haired, white blazed, hot weather adapted animal that is structurally correct and has a carcass that is tender and marbles well. The emphasis on a

phenotypical animal is outstanding with every animal looking just like the next one.

Selection using dna testing for tenderness, poll and color are used along with American epd and an experienced eye for breeding cattle.

To see these beautiful cattle is breathtaking and to choose the best one out of the group is difficult.

Congratulations to the Pine Ridge Ranching team.

### PRR Prevail Maak sy Merk op Drie Kontinente

Excelsus het in October die VSA besoek. Die Pine Ridge Ranch Stoet van Bill en Jane Travis is baie deeglik geëvalueer. Alle bloed lyne is nagegaan sodat die lyne vat in Suid-Afrika goed sal presteer geïdentifiseer kan word. PRR Prevail se nageslag staan uit in die PRR

kudde. Die vroulike diere is ongelooflik mooi. Bill en Jane is ook van die mening dat Prevail op hierdie stadium n groot impak maak in hulle kudde. Die bull wat in meer as een kudde presteer dra die merk van n uitstaande en veilige erfdwang. Prevail het uitsonderlik geteel

by Excelsus, FanieMare, Dr. Otto Herigel en by die Quatro groep. Prevail teel rooi poenskop beeste met min swart op.

### PRR Palisade: n Mengsel van ou PPR Genetika wat perfek vir SA werk

PRR Palisade is as jong bul in 2010 deur Excelsus geïdentifiseer. Sy eerste kalwers is op die grond en vertoon uitstekend. Palisade se Ma is die koningin Embrio skenker PRR

Optima wat seker een van die heel beste simbra kooie is op die oomblik. Haar dogter en klein dogter is albei skenkers in die PRR Embrio program en met die moeder lyn agter hom

behoort hy in enige kudde te presteer.
